MCC125 - Wireless link project
Final report
Walkie-talkies
Haitham Babbili

Division of work and Contribution

For writing the report Josefine, Haitham, and Oscar were responsible together for writing the parts of the software, as well as revising the whole report. Josefine wrote most of the analysis for the software part. I (Haitham Babbili) contributed to the receiver analysis for the software part. In addition, I was responsible for the introduction of the report, Deviation, Problems and System improvement (abstract and software part), Conclusion, and the Appendix (software part). Moreover, I contributed to the Link budget in the written part and fixed the PCB image in the Hardware part.
